
Wansoo Im, PhD, Associate Professor, Family & Community Medicine at Meharry Medical College and Director of the National Community Mapping Institute

Dr. Im specializes in developing decision support systems using a public participatory approach to Geographic Information Systems (GIS). He has pioneered the use of interactive, web/mobile-based GIS to support community-based participation and research on a wide range of social and environmental issues. Dr. Im previously served as co-director of the Environmental Health Core of the HDRCOE at Meharry. Dr. Wansoo Im joined the faculty at Meharry Medical College on a full time basis in 2016 to lead the National Community Mapping Institute and curate public health exposome dataset with complete metadata.
